

UX Testing + UI Iteration

		User Interface: How could the styling of elements be changed to make a more visually appealing, clear, and space efficient layout? (ex: sizes, colors, fonts, alignment, etc.)	User Experience: What elements of the user experience could be improved to make the page more intuitive and more fun/satisfying? (ex: sounds, hover effects, press effects, etc.)
User 1 Name: Cooper	<ul style="list-style-type: none">The shuffle button could be more prominent.Make hover outline darker.Give the header a drop shadow.Give shuffle and play buttons drop shadows.	<ul style="list-style-type: none">The change is that you have to click on the play button to pause a song.Finish the change song function/cover shuffle function.	
User 2 Name: Logan	<ul style="list-style-type: none">Could center the title.Put the play and shuffle buttons closer together.Shadow covers the titles.Clearer background image.	<ul style="list-style-type: none">No song overlap.Make the play button start and stop the selected song/ last clicked song.Fix images.Could label button play/pause.	
User 3 Name: Sammy	<ul style="list-style-type: none">Background quality.Add a border around images.	<ul style="list-style-type: none">Finish up audio/album swap.	
User 4 Name: Liyah	<ul style="list-style-type: none">The border clashes with the words sometimes, so make the border less thickChange the play button to a pause or rewind button so that the user knows when they click it, it pauses the song/ resets the song	<ul style="list-style-type: none">Finish the shuffle functionNo song overlap	
User 5 Name: Name Here	<ul style="list-style-type: none">	<ul style="list-style-type: none">	

UI Before Feedback (Screenshot / GIF)

What trends did you identify in your feedback?

- Remove song overlap.
- Finish the shuffle function.
- Add a smaller border around my images.
- Change background image quality.

UI After Feedback (Screenshot / GIF)

What changes did you make to improve your UI?

- Finished the shuffle function.
- Enhanced the background image as much as possible.
- Changed the border around the album covers.
- Removed song overlap; added audio fade out on click.
